- > 40 guitar effects

Please note: There are always more than enough preamps and microphones for any session at the studio. However some pieces (e.g. microphones) might be in service or on the road during your session. In case you need one particular item for your production, please inform us beforehand and we will make sure it is there.

*32 Channels Hi-End AD/DA conversion always patched and ready to connect via our Madiface USB to your Win/Mac system. Also, our Mac is always ready to use. The personal monitoring system is always ready to go as well.
